Key Benefits for Business Operations

Onspring aligns your business operations with live, continuous views of critical data and people-centered user experiences to enable more valuable, more efficient, more productive management. **One agile system works across all lines of business for all policies, all controls, all frameworks and all relationships.**

→ Manage costs, risk levels, contract status & onboarding processes across your entire vendor universe.

→ Relate contracts, policies, clauses and notes to departments, business units, or regulations to uncover hidden risks

→ Automate status reports, financial reporting, caseload summaries and notifications for routing, escalation and critical events.

→ Contribute strategic advice while delivering on day-to-day needs & ensuring regulatory compliance

→ No more micro-managing timelines for others thanks to automated reminders for task completion summaries and notifications for routing, escalation and critical events.

→ Granular access control for roles, including staff, management and leadership.

The Onspring Difference

Omni-data Connectivity

Made to Scale Up & Out

No-code, Self-sustaining Administration

People-powered Platform

Onspring is an autonomous solution. As a cloud-based, no-code platform, Onspring is ready to go out-of-the-box **and** grows with your needs, adapting to methodologies, maturations, roles and regulations. You can independently run, add and update our applications on your own to suit your particular enterprise-wide teams.

Platform Features

Live reporting
Real-time data aggregation in tables, graphs & maps that drill directly to details

Executive dashboards
Deliver insights & communicate activities in a role-based command center

Data references
Relate data points to impacted policies, controls, requirements, regulations & frameworks

Formulas
Calculate values from multiple data sets & APIs to measure real-time status

Surveys
Send assessments, attestations & surveys on an automatic schedule or ad hoc

Access Control
Set permissions by user to create, read-only, edit & delete

Task Management
Assign individual tasks & track completion by team member, due date, budget & priority

Integrations
Consolidate third-party monitoring services & your favorite tech into one interface

Ready-made
Start immediately with out-of-the-box workflows & reports; just add your data

Make it Your Own
Edit & create new workflows & reports on your own without IT or dev resources

End-to-End Management
Unify all angles of your operations to fully assess, prioritize, manage & monitor

Connected
Connect with Audit, IT, InfoSec & Compliance teams to manage collective efforts

Real ROI

70%
increase in employee efficiencies

50%
reduction in redundant tasks
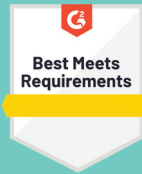

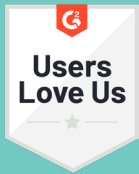

0 min.
wait to update workflows & reports

Onspring Customer Success

"Onspring's vendor management tool has changed the way we operate. The reporting capabilities, ability to update and customize without IT budget or engagement, relationship-mapping and ease of use set them apart from other tools we explored. Primarily purchased to manage projects, contracts and vendors, we continue to expand scope and automate processes because the functionality is easy to learn and customize as our needs change."

HUMANA

"I can personally attest to saving dozens of hours a month by the efficiencies gained from Onspring. We realized just how customizable Onspring is and expanded our project scope to bring many of our manual processes into Onspring for better reporting, automation, and efficiency. In addition to corporate counsel and governance, we added tracking of CARES Act funding, acquisitions, insurance policies, legal entities, a licensure database, and ESG management."
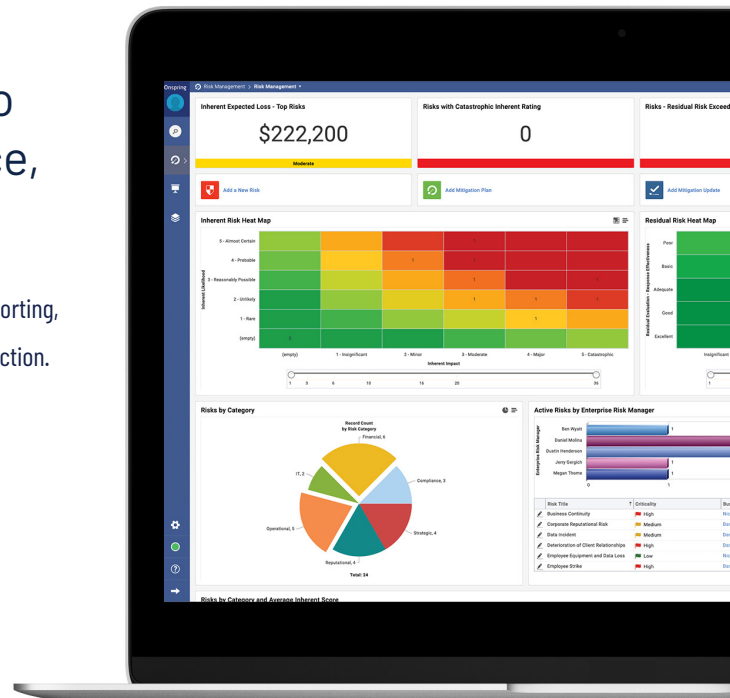

SEVITAHEALTH

Onspring is no-code process automation software that connects data and teams to improve business intelligence, governance, alignment & resilience.

When people are empowered to create their own workflows, processes, requirements, and reporting, teams are more productive and business runs better. More control. More visibility. More connection. Better decisions.

Onspring is the automation software hundreds of enterprises are built upon. And while our technology continually evolves with business innovations, our approach is always human.
