## Cybersecurity Maturity Model Certification (CMMC)

Intelligent Automation & Connected Data Platform

# Why choose Onspring for CMMC Management?

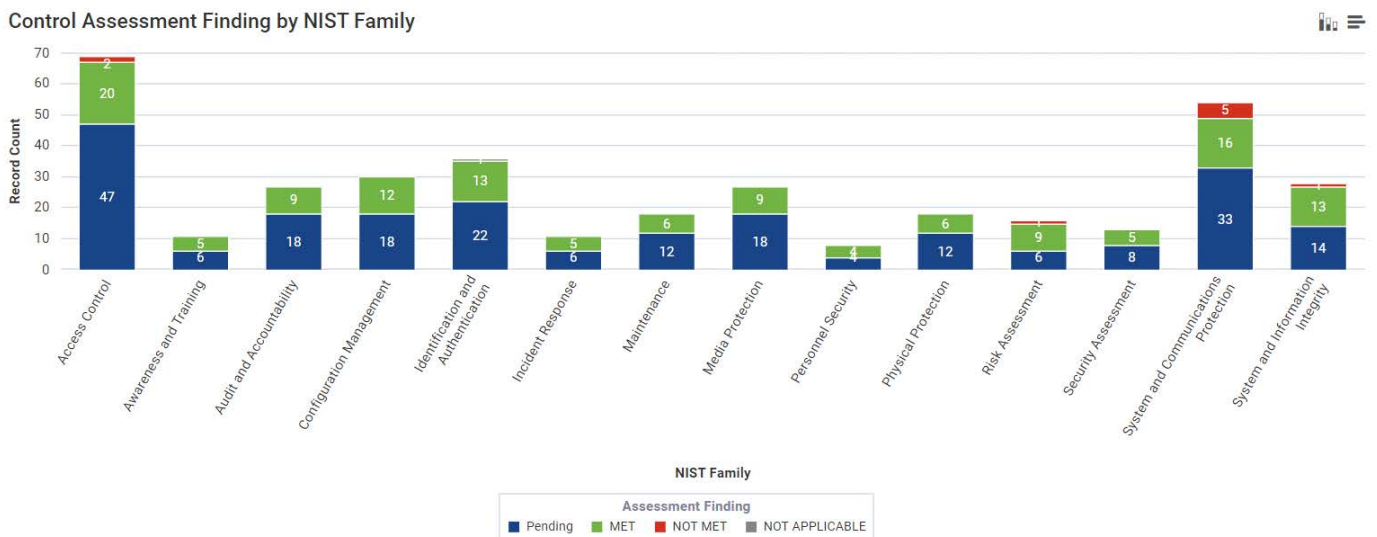

Tracking your organization's efforts to prepare for and achieve certification for CMMC 2.0 requires next-level organization. Onspring automates the process to map CMMC compliance requirements to controls and objectives, collects evidence and provides documentation to get your organization audit ready.

With Onspring, you can quickly monitor your organization's status of met or not met controls and objectives to determine compliance in accordance with any of the three CMMC levels, plus keep a pulse on your current SPRS Score.

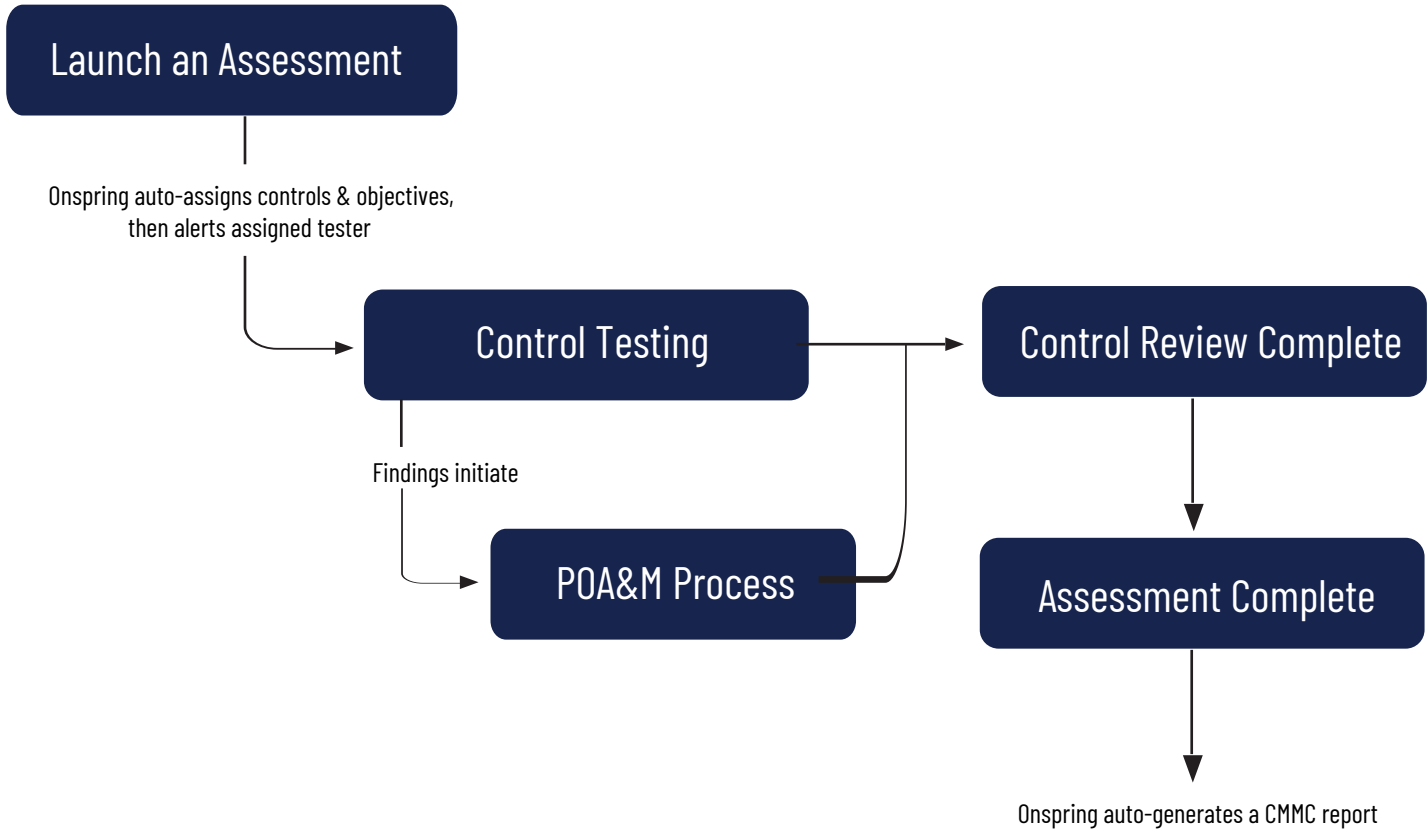

Manage enterprise-wide CMMC 2.0 compliance from one dashboard.

Track the status of control assessments in real-time.

# One Connected System for End-to-End CMMC Management

## CMMC Assessment Report

Assessment Level: 1 - Foundational

Assessment Owner: Yia Yang

Date Completed:

Next Assessment Date:

SPRS Score: 110 / 110

% Controls Met	<div style="width: 100%; background-color: #90EE90; border: 1px solid black;"></div> 100%
% Controls Not Met	<div style="width: 0%; background-color: #FF0000; border: 1px solid black;"></div> 0%
% Controls N/A	<div style="width: 0%; background-color: #CCCCCC; border: 1px solid black;"></div> 0%

## Key Benefits for CMMC Management

Onspring aligns your organization with live views of critical data and people-centered user experiences that enable risk-based decisions. Take advantage of one connected system for comprehensive CMMC management across your organization.

- Conduct maturity evaluations to confirm readiness by CMMC level
- Ready-made workflows send notifications to initiate the POA&M process for non-compliant controls & objectives
- Reports display current control assessment findings and related plans of action by status & due date
- Automatically send formatted reports to stakeholders to communicate status, impact & next steps

## The Onspring Difference

- ⚡ Omni-data Connectivity
- ⚡ Made to Scale Up & Out
- ⚡ No-code, Self-sustaining Administration

## People-powered Platform

Onspring is an autonomous solution. As a cloud-based, no-code platform, Onspring is ready to go out-of-the-box and grows with your needs, adapting to methodologies, maturations, roles, and regulations. You can independently run, add, and update our applications on your own to suit any team .

# Platform Features

## Live Reporting

Real-time data aggregation in tables & graphs that drill directly into details

## Executive Dashboards

Deliver insights & communicate activities in a role-based command center

## Data References

Relate CMMC controls to evaluations, including NIST SP 800-171 & 172

## Formulas

Calculate values from multiple data records to measure real-time risk posture

## Surveys

Send unique CMMC assessments that correspond to the level of certification needed

## Access Control

Set permissions by user to create, read-only, edit & delete

## Task Management

Assign individual tasks & track completion by team member, due date, budget & priority

## Integrations

Consolidate third-party monitoring services & your favorite tech

## Ready-made

Start immediately with out-of-the-box workflows & reports; just add your data

## Make it your own

Edit & create new workflows & reports on your own without IT or dev resources

## End-to-End Management

Unify all angles of CMMC management

## Connection

Collaborate with all functions in a centralized platform

## Real ROI

70%

increase in employee efficiencies

50%

reduction in time to manage CMMC compliance

0 min.

wait to view unresolved incidents

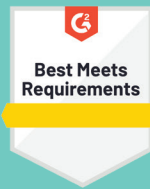

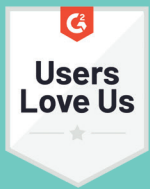

# Onspring Customer Success

"Hands down the best system we evaluated. We could tell the service we would receive was the service that worked best for our model."

- MAGELLAN MIDSTREAM PARTNERS

"I love that I don't need an IT degree to be a successful & effective system administrator. We are ideating more processes to automate in Onspring."

- MASCO

## Cloud-based, no-code GRC software

As the automation software hundreds of enterprises are built upon, our technology continually evolves with business innovations, while our approach remains human.
