Contract Management

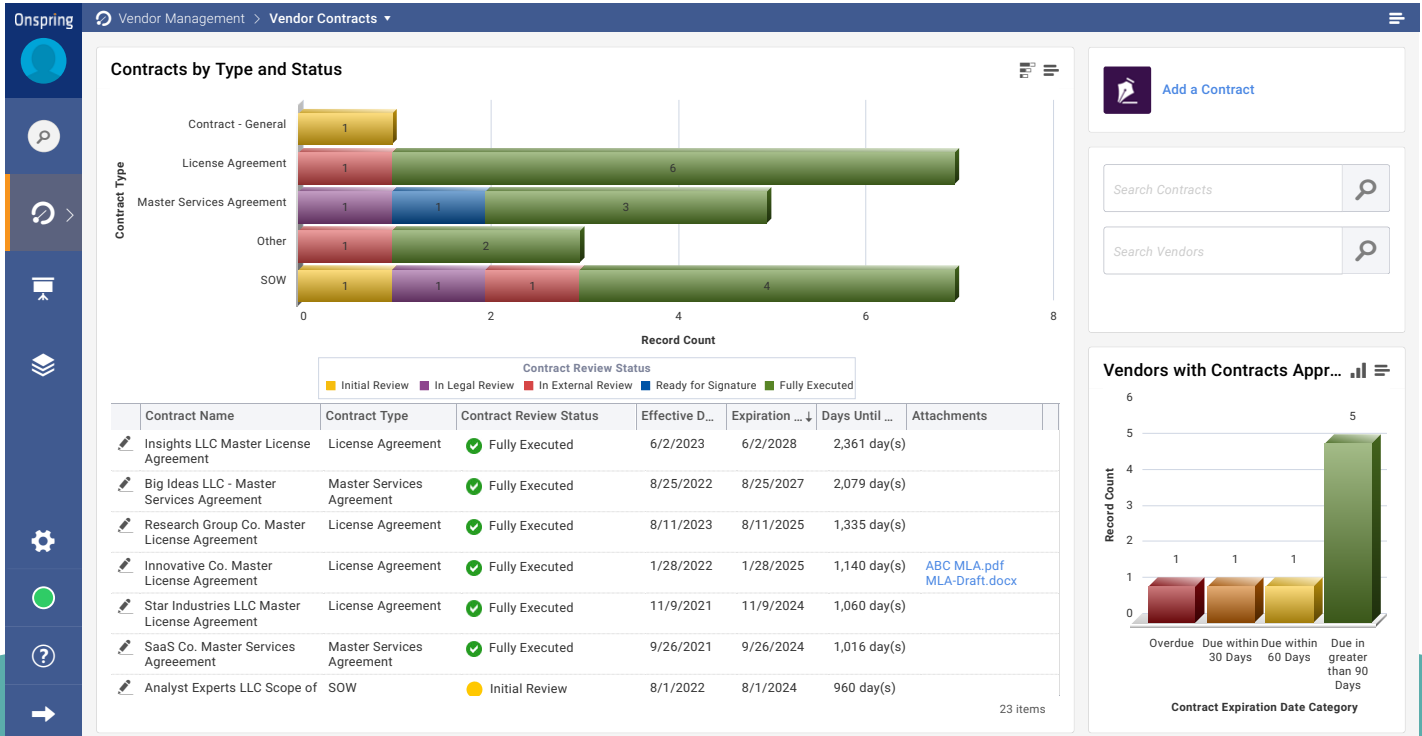

Intelligent Automation & Connected Data Platform

Why choose Onspring for Contract Management?

No more documents on hard drives. No more approval bottlenecks. No more sticky notes with renewal reminders. When you automate contract management with Onspring, you gain critical control and comprehensive visibility within one, centralized contract repository.

From document tagging to collaborative redlining, Onspring enables you to partner with vendor and risk teams to centralize and improve everything from visibility to supplier performance.

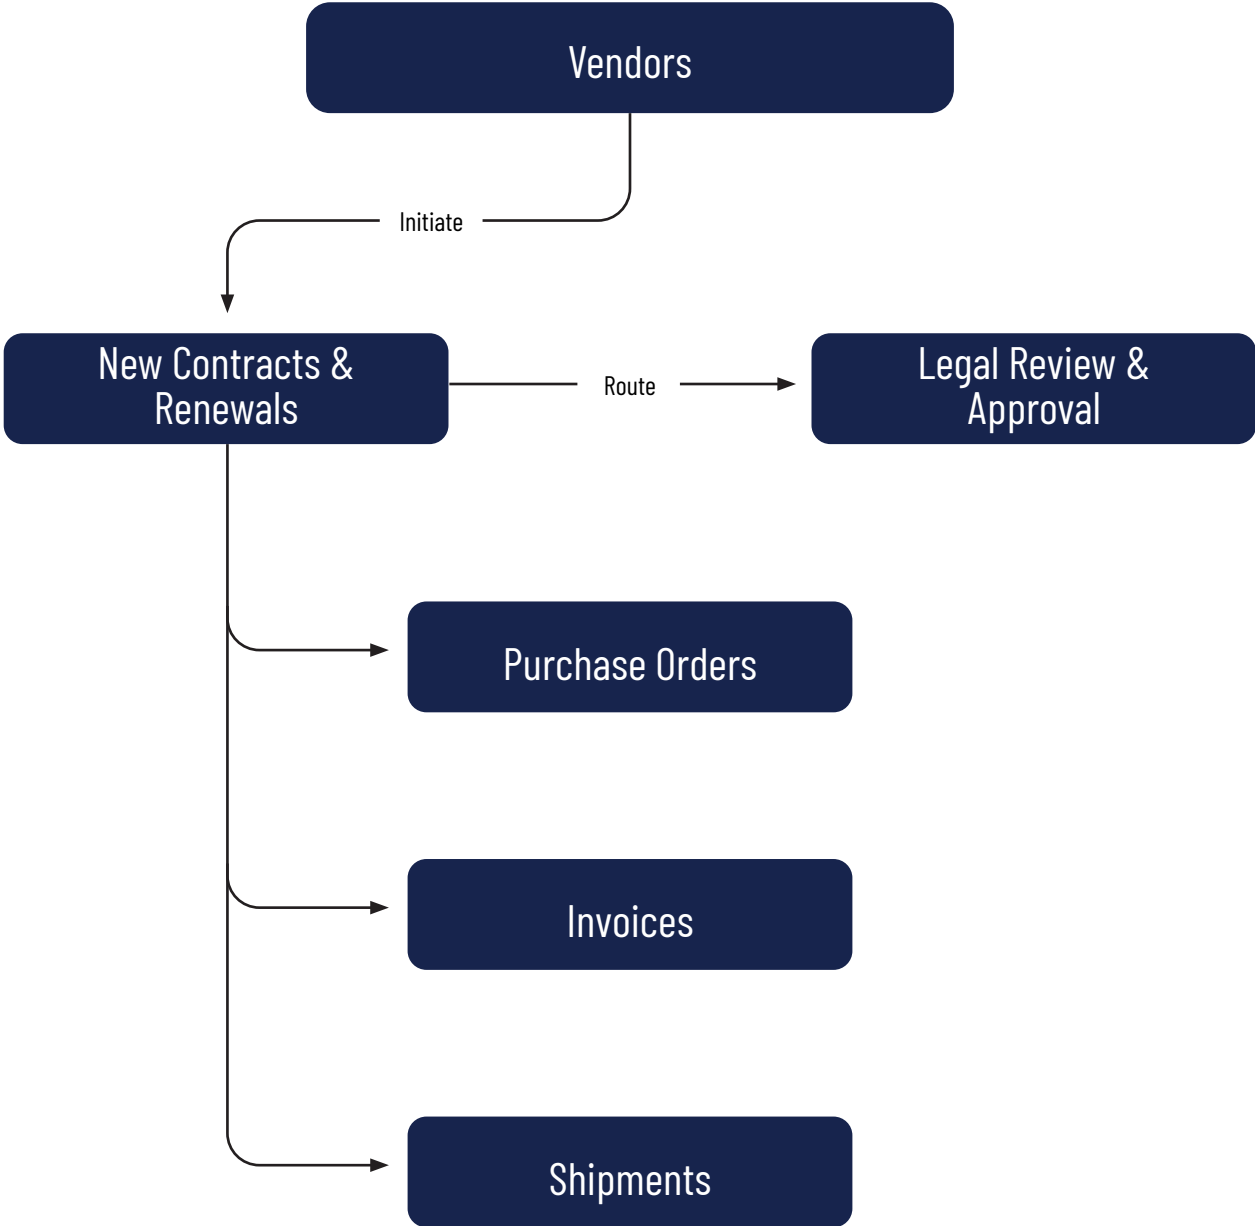

Singular dashboard to manage contracts across your enterprise at any stage.

Analyze trends in spend levels, terms, types and more to maintain complete visibility into enterprise-wide contracting.

One Connected System for End-to-End Contract Management

Key Benefits for Contract Management

Onspring aligns your enterprise with live views of critical data and people-centered user experiences to enable risk-based business decisions. One system for every step of contract submissions, reviews, approvals, renewals, and expirations.

- Send alerts for impending contract expirations to proactively review renewal terms & rates
- Plan workload with calendar displays of upcoming contract review deadlines or expiration dates
- Organize contract requests by priority, counterparty, type & review status
- Track clause information by termination, indemnity, exclusivity & damages for better clarity

The Onspring Difference

- ⚡ Omni-data Connectivity
- ⚡ Made to Scale Up & Out
- ⚡ No-code, Self-sustaining Administration

People-powered Platform

Onspring is an autonomous solution. As a cloud-based, no-code platform, Onspring is ready to go out-of-the-box and grows with your needs, adapting to methodologies, maturations, roles and regulations. You can independently run, add, and update our applications on your own to suit your entire enterprise.

Platform Features

Live Reporting

Real-time data aggregation in tables, graphs & maps that drill directly to contract details

Executive Dashboards

Deliver insights & communicate activities in a role-based command center

Data References

Relate contracts & clauses to departments, business units, or parent & child contracts

Formulas

Calculate values from multiple data records to measure workload, vendor risk, or unique clauses used

Surveys

Send assessments, attestations & surveys on an automatic schedule or ad hoc

Access Control

Set permissions by user to create, read-only, edit & delete

Task Management

Assign individual tasks & track completion by team member, due date, vendor & priority

Integrations

Consolidate your favorite tech, including OneDrive, Google Drive & Slack

Ready-made

Start immediately with out-of-the-box workflows & reports; just add your data

Make it your own

Edit & create new continuity & disaster recovery plans on your own without IT or dev resources

End-to-End Management

Unify every step of contract management from reviews, to redlines, to vendor reporting

Connection

Automatically connect data with Vendor, Risk, InfoSec & Compliance teams or manage their efforts in Onspring

Real ROI

50%

reduction in time to process contracts

50%

reduction in time to process contracts

0 min.

wait to view live status of activated plans

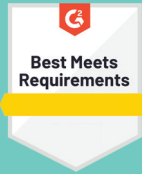

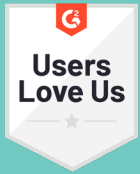

Onspring Customer Success

“We use Onspring to manage projects, contracts and vendors, and it has been easy to learn, use and customize to fit our business needs. The reporting capabilities, ability to update and customize without IT budget/engagement, relationship-mapping capabilities and ease of use set Onspring apart from other tools we explored.”

– HUMANA

“Onspring has become a technology solution that we depend on more and more for different aspects of our business, including contract, vendor and risk management. We constantly find new ways to leverage the functionality it has to offer.”

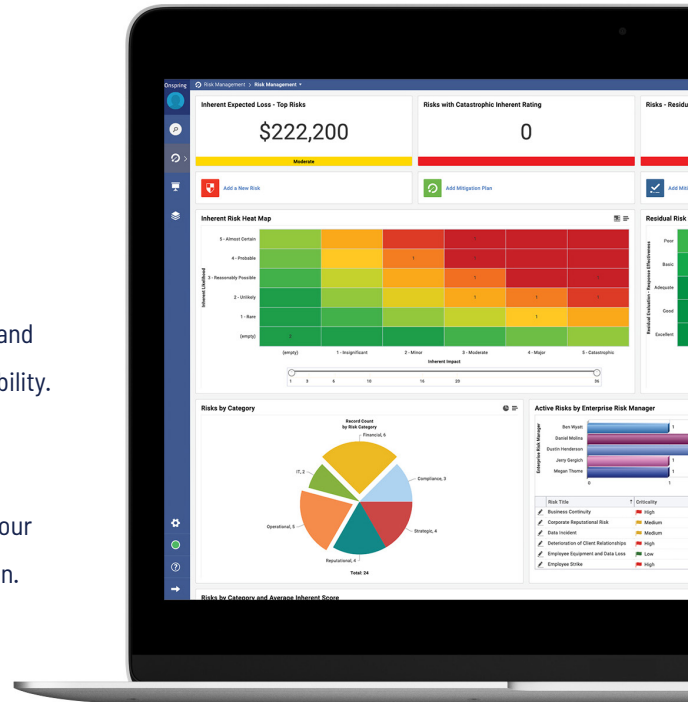

– CIENA CORPORATION

Onspring is no-code process automation software that connects data and teams to improve business intelligence, governance, alignment & resilience.

When people are empowered to create their own workflows, processes, requirements, and reporting, teams are more productive and business runs better. More control. More visibility. More connection. Better decisions.

Onspring is the automation software hundreds of enterprises are built upon. And while our technology continually evolves with business innovations, our approach is always human.
