Onspring Customer Success

"I can personally attest to saving dozens of hours a month by the efficiencies gained from Onspring.

We realized just how customizable Onspring is and expanded our project scope to bring many of our manual processes into Onspring for better reporting, automation, and efficiency.

In addition to corporate counsel and governance, we added tracking of CARES Act funding, acquisitions, insurance policies, legal entities, a licensure database, and ESG management."

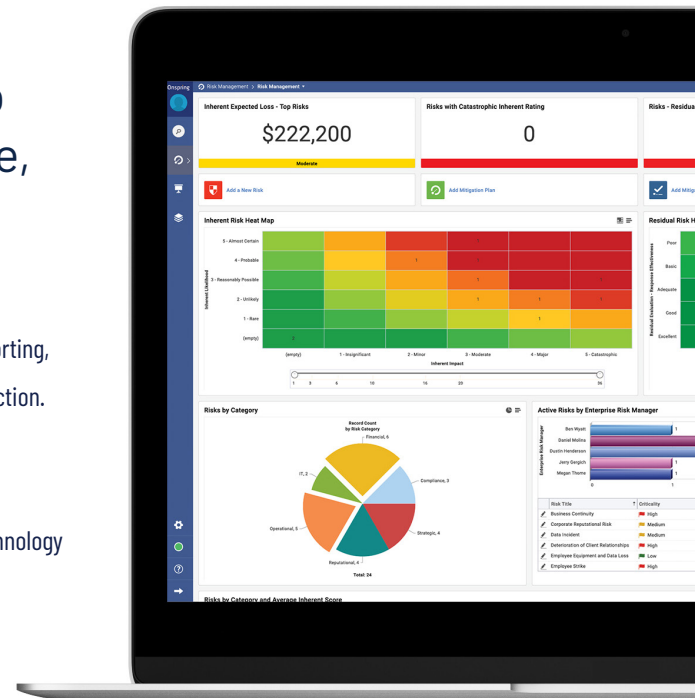

- ASSOCIATE CORPORATE COUNSEL, SEVITA

Onspring is no-code process automation software that connects data and teams to improve business intelligence, governance, alignment & resilience.

When people are empowered to create their own workflows, processes, requirements, and reporting, teams are more productive, and business runs better. More control. More visibility. More connection. Better decisions.

Onspring is the automation software hundreds of enterprises are built upon. And while our technology continually evolves with business innovations, our approach is always human.
