Monitor Vendor Financial Risk in Onspring with Data from RapidRatings

Consolidate critical financial intelligence
into your third-party risk management

STREAMLINE CRITICAL VENDOR INFORMATION INTO ONE INTEGRATED SYSTEM

RapidRatings delivers unbiased, financial risk insights. Onspring activates that data throughout your vendor management workflows. 

Do you have a clear picture of the true financial health of your suppliers, vendors, and other third parties? Do you know which partners you can truly rely on? When enterprises are able to integrate unbiased, quantitative public and private company ratings from Rapid Ratings into Onspring workflows, risk managers are able make better, proactive decisions throughout the vendor management process.

YOUR ORGANIZATION BENEFITS THROUGH:

1

Ongoing, Real-time Third-party Monitoring

Automated alerts, triggered plans and communication between you and your third parties mean risk issues can be remediated faster.

2

Transparent Financial Conversations with Vendors

With RapidRatings fueling the objective ratings behind Onspring's real-time reporting, you're able to hold more transparent discussions—both internally and with your vendors—to help mitigate risk and capitalize on opportunities.

WHY INTEGRATE RAPIDRATINGS?

Based on a proprietary, unbiased model finely calibrated over the course of 30+ years, RapidRatings analyzes 300,000+ public and private companies worldwide across 24 industry sectors to produce two predictive indicators of a company's financial viability, operational efficiency and business resilience.

Financial Health Rating (FHR®):

A number from 0-100 that indicates the probability of default within 12 months

Core Health Score:

A metric that represents operational efficiency and long-term sustainability

These measurements and supporting data give you visibility into the financial risks and predictive probabilities associated with both the public and private companies that touch your business.

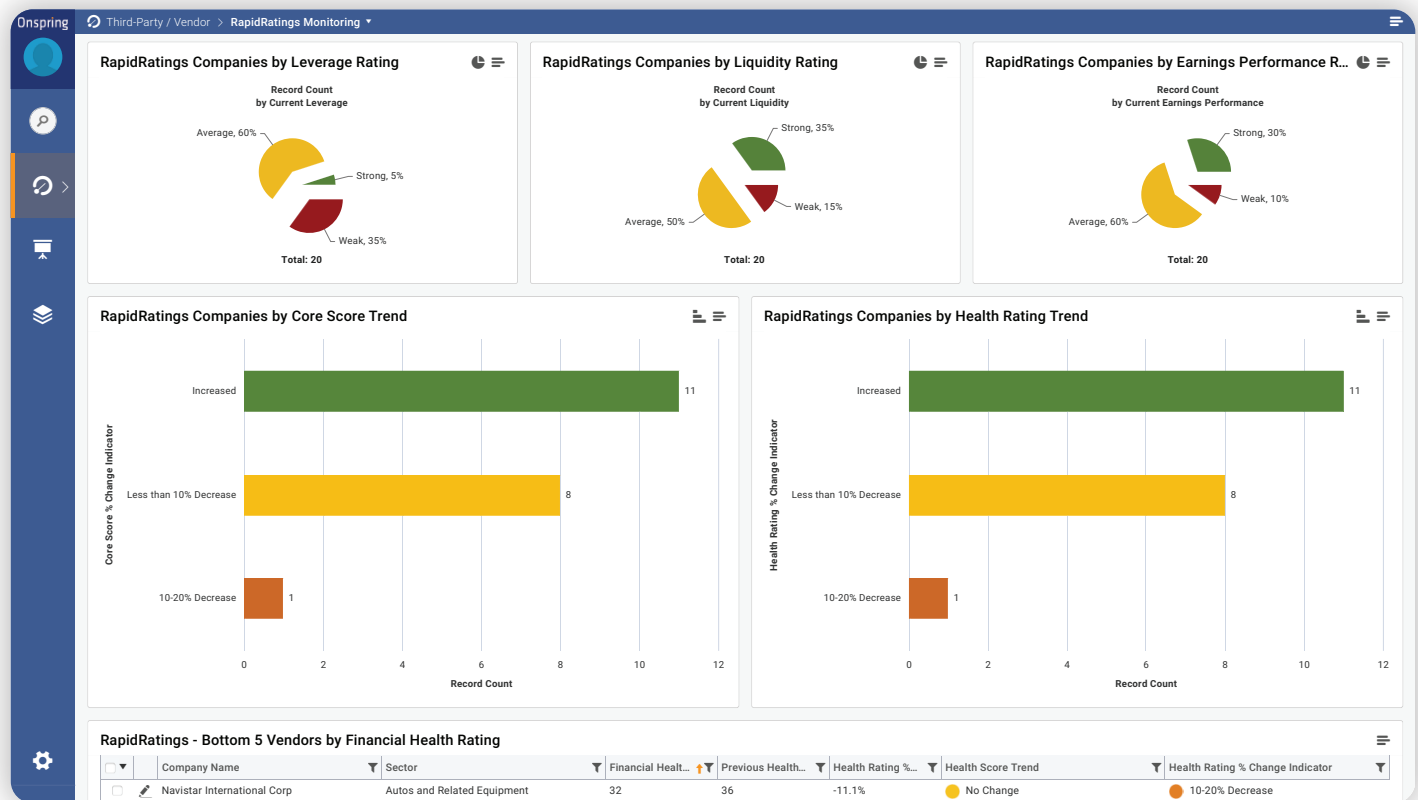

RAPIDRATINGS EVALUATES:

- Profitability
- Operating Efficiency
- Earnings
- Liquidity
- Leverage
- Debt Coverage
- Probability of Default (12 months to 10 years)

Integrating these metrics into Onspring not only gives you real-time, holistic view of third-party financial vulnerabilities, but you can proactively set thresholds that automatically activate assessments or mitigation plans within Onspring, propelling better & faster third-party risk management decisions.

MONITORING THIRD-PARTY FINANCIAL RISK ACROSS THE ENTERPRISE

Get an accurate and up-to-date overview of your third parties' Financial Health Ratings, Core Health Scores, Leverage Ratings and more.

A versatile dashboard displays high-level financial information from RapidRatings' real-time data feed, which provides insight into the financial health of your third and fourth parties.

- Identify early warnings of future performance or potential disruption issues before they occur
- Support strategic decision-making to take risk mitigation action and/or adjust your business relationship strategy
- Identify which existing third parties are most capable of improving their performance

MONITORING EACH PARTY

Objective, universal data imported from RapidRatings assigns each vendor a score from 0 to 100, which reflects its current financial risk posture.

You can quickly identify the highest priorities when you see ratings trend lower, which automatically triggers assessments or escalates requests for triage. Ratings are updated in real-time.

- Reference the rating as a universal metric to create a common language for managing risk across your enterprise
- Automatically notify risk owners of third-party risk fluctuations
- Select businesses at the procurement or sourcing stage— when you have no relationship history—that are most likely to contribute positive performance
- Substantially decrease prep time and effort for your vendor financial reviews

REPORTING & RELATIONSHIPS

Enable procurement, supply chain, and finance professionals with various levels of financial expertise to engage confidently in financial health reviews by generating financial health score and financial dialogue reports from Onspring.

RapidRatings - Bottom 5 Vendors by Financial Health Rating

<input type="checkbox"/>	Company Name	Sector	Financial Health...	Previous Health...	Health Rating %...	Health Score Trend	Health Rating % Change Indicator
<input type="checkbox"/>	Navistar International Corp	Autos and Related Equipment	32	36	-11.1%	No Change	10-20% Decrease
