REGOLOGY

# Manage Regulatory Change in Onspring with Legal Insights from Regology

Consolidate ongoing legal and regulatory  
updates into your compliance program

# Reduce regulatory risk in one integrated system

Regology delivers relevant regulatory updates. Onspring activates that information throughout your compliance management workflows.

Is your team able to analyze heavy and highly technical regulatory text to determine applicable legislation for your organization? Can spreadsheets and emails keep up with constant rule changes, impact assessments, mitigation and documentation?

When organizations are able to integrate up-to-date regulatory change intelligence from Regology into Onspring, compliance teams get one consolidated view of data to action in real time.

## Why integrate Regology?

Regology is an AI-powered regulatory intelligence platform that provides real-time regulatory change content for seamless integration with the Onspring GRC platform.

With Regology, organizations can stay up-to-date with relevant regulatory changes, track laws and citations, and streamline compliance with applicable regulatory alerts throughout the entire legislative process.

Cover state, federal, and global legislation that applies to your organization.

Easily view what is new or revised with automatic change-tracking.

Eliminate noise and save time with customized alerts that are relevant to you.

Mitigate risks through real-time notifications for proactive control testing against regulatory updates.

# Key Features

## Smart Law Library

Organize legal content by jurisdictions, topics, and activities. Filter, focus, and prioritize updates, based on your regulatory environment.

## Horizon Scanning & Alerts

Receive tailored alerts with a customized view to take notes and collaborate. Track and analyze regulatory changes, agency alerts and active bills by jurisdiction & status in one place.

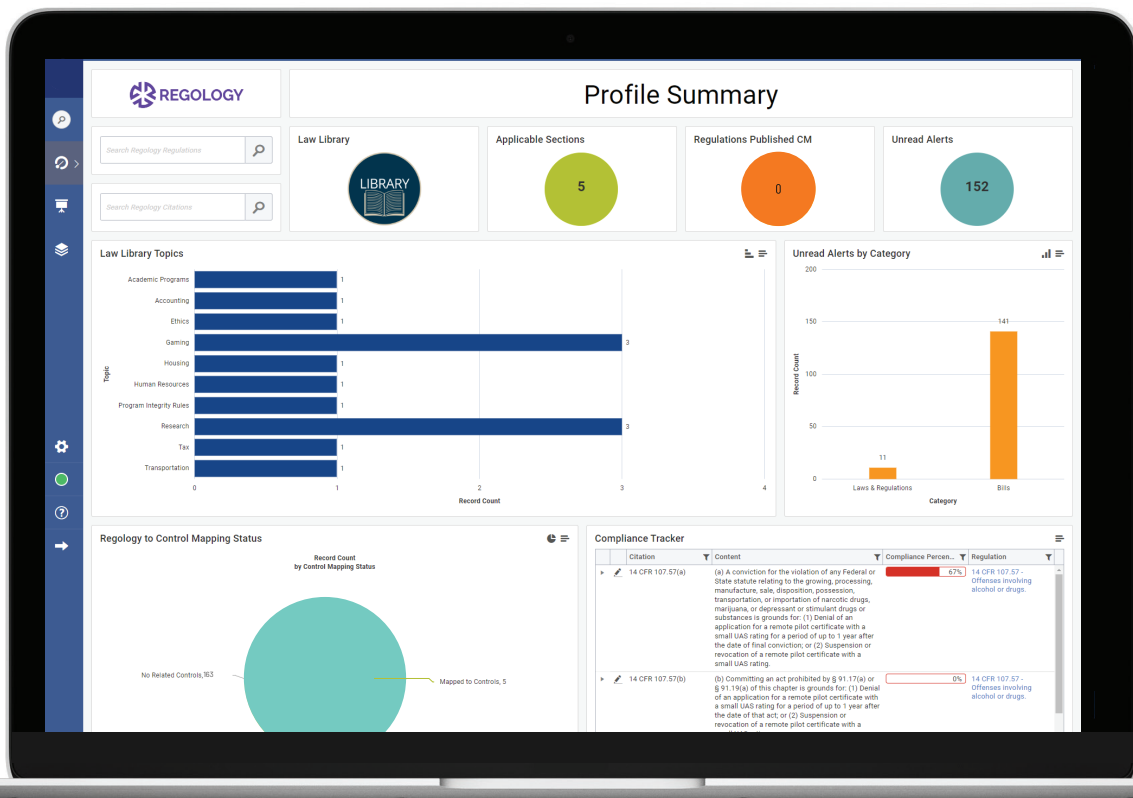

## Automatic Change Tracking

Compare what has changed in a regulatory text with Regology's automatic change-tracking feature. Instantly view synopsis, definitions, citations, and requirements.

## Executive Reporting

Generate customized reports on the business impact of regulatory changes in risk terms. Provide executive leaders with valuable insights to make informed decisions and demonstrate compliance efforts.

# How It Works

## Onspring's Regology Integration

Before you get started, you'll want to confirm that your Regology subscription is active and that your organization has configured the Regology integration in Onspring.

1

Install

Add the Regology integration to your Onspring instance and any preconfigured applications to get you up and running.

2

Capture

The intelligence from your designated regulations with Regology syncs directly into Onspring, fueling deeper understandings of your obligations.

3

Analyze

Regology updates your relevant regulatory obligations automatically every time a rule or law changes for your immediate review.

4

Activate

Automate triggered notifications to internal teams and third parties that activate workflows based on Regology information.

5

Report

Continue to maintain and send accurate, up-to-date reporting to executives, to your board and to owners through Onspring.

# One Integration. Many Uses.

Once you install the Regology integration in your Onspring instance, you'll be able to configure information across many uses in your organization.

## > Consumer Protection

Ensure your compliance addresses the protection of personal information, data security, and information technology, as well as false advertising and charitable solicitations with Regology's customized law library that includes data privacy regulations, such as CCPA, GDPR, DPA, CPPA & PIPEDA, and LGPD.

## > Evidence Collection Protocols

Whether it's your people, information, and assets, or the public, customers, and cultural holdings, get comprehensive legal content that addresses your physical security needs and helps you organize your evidence collection process with tasks that are automatically generated for each individual piece of evidence.

## > Protect Against Fines

With attacks on digital infrastructure growing more problematic for all industries, banking and financial institutions in particular must stay compliant with cybersecurity laws as well as improve BSA/AML/KYC systems with regulatory intelligence.

## > Protect Against Hackers

Incorporating Regology's smart law library intel into Onspring enables you to better define policies, risks, and controls for safeguarding against cybercrime.

## > Manage Labor & HR

Get detailed coverage of essential labor and HR laws in accordance with local regulations. Regology provides custom insights to meet the distinct legal nuances across regions.
